

F.A. NAJMMY INDUSTRIES is a world leading, manufacturers, suppliers, distributors and exporters of Manicure, Pedicure, Professional Beauty Care, Eye, Dental and Surgical Instruments and all sorts of Scissors. The company provides a comprehensive product range covering multiple product categories to a wide spectrum of end users including professionals, corporations as well as for industrial applications. We have been supplying our products locally and internationally since 1976 and have built up an extensive infrastructure of management, clients, vendors and production.

The main aim of the company is to develop new and innovative quality products with the help of advanced technology to meet the varied demands of the customers. Our research and development department is fully capable to foresee the future needs of the International market, which helps us to carry on with various researches in design and modern technology that gives us an edge in this competitive market. The production departments equipped with CNC machines, Grinders, Lathe machines, Shapers, Milling machines, Power presses, heat treatment, ultra sonic machine and various other machines. During manufacturing we use domestic as well as imported high grade stainless steel like in 400 series stainless steel AISI 410, 420, 440 AND IN 300 SERIES AISI 303, 304, 308 etc.

We never compromise with quality and follow International Standards with the help of various processes like copper sulphate test, passivation and Boil test to ensure that the instruments shall be 100% immune from RUST especially instruments which used for medical purpose.

We strictly follow the instructions of our valued buyers as well as rules and regulations of International Standards. The Company also strictly following the policy of not employing child labor in keeping with moral and international laws by following IPEC, ILO rules.
